EDUCATION

VIT-AP University: Bachelor of Technology in Artificial Intelligence & Machine Learning

CGPA: 9.10/10

Graduation Timeline: 2024 – 2028

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript

Software Engineering Foundations: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), SQL

Machine Learning: Regression, Classification, Decision Trees, Random Forest, Logistic Regression, KNN, Naïve Bayes

Generative AI: LLMs, RAG, AI Agents, Prompt Engineering, LoRA, QLoRA, Embeddings, Vector Databases

Libraries & Tools: Scikit-learn, Pandas, NumPy, Firebase, Git, GitHub, MySQL, VS Code, Jupyter Notebook

WORK EXPERIENCE

Calibo India Private Limited | AI/ML Intern | Jun 2026 – Jul 2026

Engineered a modular GeoAI Python application utilizing Google Earth Engine pipelines to calculate real-time land surface parameters, automating urban heat hotspot detection and generating targeted micro-cooling recommendations via an interactive Streamlit and Folium dashboard.

Designed an asynchronous evidence retrieval engine utilizing LangChain and ChromaDB to extract, rank, and serve explainable AI recommendations backed by scientific literature and official regulatory guidelines, optimizing query retrieval speeds.

Tech stack used: Python, Streamlit, Google Earth Engine, Folium, RAG, Git, VS Code.

NXT Wave | Virtual Internship| Frontend Web Cloning | May 2025-June 2025

Engineered a Website Landing front-page clone of NXT Wave, built structural semantic layouts from scratch.

Tech stack used: HTML5, CSS3, Bootstrap

PROJECTS

Google Solution Challenge 2026 Build with AI |Smart Serve AI

Developed an intelligent platform using Google Cloud Vision OCR to digitize handwritten reports, Google Maps and Geolocation APIs for location-aware volunteer allocation, and real-time React/Firebase dashboards for seamless task lifecycle management

Bharatiya Antariksh Hackathon 2026 |UrbanCool AI

Developed a GeoAI platform using Google Earth Engine to analyse NDVI, NDBI and LST for urban heat hotspot detection and optimized cooling recommendations.

ACHIEVEMENTS

Flipkart GRID 8.0 – Semi Finalist: Qualified for the Semi-Final of Flipkart GRID 8.0, a national engineering and software development competition organized by Flipkart.

President, Dragon Fist Martial Arts Club, VIT-AP | Black Belt (Shito-Ryu): Led club operations, training, and events.

CERTIFICATIONS

AI Engineer Core Track – Ed Donner (Udemy) | Focus: LLMs, RAG, AI Agents, LoRA, QLoRA

Machine Learning Specialization – Andrew Ng
